

NAGENDRA SRINIVAS MAVURI

Principal Software Architect | AI-Augmented Engineering Leader

Chennai, Tamil Nadu | +91 9840966041 | nagendrasrinivas08@gmail.com | [linkedin.com/in/nagendrasrinivasm](https://www.linkedin.com/in/nagendrasrinivasm)

PROFESSIONAL SUMMARY

Principal Software Architect and Engineering Leader with 15+ years of experience designing and delivering high-throughput eCommerce and telecommunications platforms at scale. Proven track record of driving platform modernization, AI/ML integration, and Agentic AI adoption. Expert in microservices architecture, distributed systems, cloud-native solutions, and leading cross-functional engineering teams. Currently spearheading Generative AI and Agentic Experience initiatives — including LLM-powered customer journeys using AG-UI, CopilotKit, and Agent Guardrails — to accelerate business outcomes and conversion velocity. Experienced in Agile/Scrum delivery, stakeholder alignment, and mentoring high-performing teams.

CORE TECHNICAL COMPETENCIES

Architecture & Systems Design	Microservices Architecture · Event-Driven Design (EDA) · Domain-Driven Design (DDD) · Distributed Systems · REST APIs · gRPC · High-Availability Systems · Scalability · Performance Engineering · System Design
Agentic AI & Generative AI	AG-UI · AG2UI · CopilotKit · Agent Guardrails · LLM Integration · Prompt Engineering · Google Gemini · ChatGPT (GPT-4) · GitHub Copilot · RAG · AI Roadmap Strategy · Agentic Workflow Design
Frontend & Frameworks	React.js · Next.js · Micro Frontends (MFE) · Single Page Applications (SPA) · Node.js · TypeScript · JavaScript (ES6+) · Spring Reactive (WebFlux) · Java
Cloud & DevOps	CI/CD Pipelines · Cloud-Native Architecture · API Gateway · Containerization · Performance Monitoring · SEO Optimization · Agile / Scrum · OKRs
Languages	JavaScript (TypeScript) · Python · Java

PROFESSIONAL EXPERIENCE

Principal Engineer · Verizon

September 2016 – Present

Chennai, Tamil Nadu | eCommerce & Telecommunications Platform

- Agentic Experience Design:** Architected the end-to-end Agentic customer purchase journey for device and plan selection, leveraging AG-UI, AG2UI, and CopilotKit protocols combined with Agent Guardrails to deliver safe, intent-driven, and compliant AI interactions across the eCommerce funnel — reducing decision friction and improving self-service conversion.
- AI & LLM Roadmap Leadership:** Established and drove the enterprise Generative AI roadmap, translating Proof-of-Concept results using Google Gemini and GPT-4 (ChatGPT) into production-ready strategies that improved conversion funnel velocity and enhanced customer self-service capabilities at scale.
- Platform Modernization:** Spearheaded the architectural migration of a legacy monolith to a cloud-native, multi-repository Single Page Application (SPA) using React.js and Next.js — successfully scaling to serve 3M+ daily active users with high availability and low latency.
- Performance Engineering:** Directed a high-impact performance optimization initiative, reducing average page load times by 40% (5s → 3s), directly improving Core Web Vitals, SEO ranking signals, and customer conversion rates.
- eCommerce Platform Development:** Led engineering delivery of a high-performance eCommerce application using Next.js and Spring Reactive Programming (WebFlux), replacing a legacy system and achieving significant uplift in conversion rates.
- Engineering Leadership & Mentorship:** Managed, mentored, and grew a high-performing team of 10+ engineers — providing technical direction, overseeing end-to-end project delivery, and structuring individual career development plans.
- Micro Frontend Architecture:** Designed and implemented a Micro Frontend (MFE) architecture enabling independent deployment of UI modules, reducing release cycle time and improving team autonomy at scale.

IT Analyst · Tata Consultancy Services (TCS)

February 2014 – September 2016

Chennai, Tamil Nadu | Enterprise Technology & Business Development

- **Pre-Sales & Technical Solutioning:** Provided expert technical scoping and resource estimation for RFP responses, directly contributing to securing major enterprise client contracts within the Business Development unit.
- **Team Leadership:** Managed a team of 3 engineers, overseeing deliverables, project timelines, and professional development outcomes.
- **Recognition:** Awarded Certificate of Excellence for outstanding contribution to enterprise mobility projects.

Software Developer · Virtusa

July 2010 – February 2014

Chennai, Tamil Nadu | Mobile & Hybrid Application Development

- **Mobile & Hybrid Development:** Explored and implemented UX-focused frameworks with hands-on development in iOS and hybrid applications using PhoneGap (Apache Cordova), informing future technology stack decisions.
- **Recognition:** Awarded Best Team Player award for cross-functional collaboration.

EDUCATION

Bachelor of Engineering · Anna University, Chennai, Tamil Nadu

Graduated 2010

AWARDS & RECOGNITION

Certificate of Excellence – Tata Consultancy Services (TCS), for outstanding contribution to mobility projects.

Best Team Player Award – Virtusa, for cross-functional collaboration and team contribution.
